

► **Small Knives** Great for collectors, children and small tasks. These handsome knives all have 2.5" carbon steel blades. The handles are reindeer and arctic curly birch.

LH1007 / LH1006 / LH1001

Tundra Knives™

KT Line from the far north with a mix of reindeer antler and arctic curly birch handles these carbon steel tools are beautiful and yet made for use for tasks from skinning to mushroom gathering. Beautiful and utilitarian as is the tradition of Finnish knives.

► **Tundra Opener - KT23AV** is for opening game easily.

◄ **Tundra Camp Whittler w/ Fire Stick - KT23J** scratching the stick against the back of the blade, can generate sparks to make a fire.

Finland's northern location and length mean that the living conditions of game vary greatly in the different regions of the country. Only relatively few game animal species can endure the rugged landscape and severe winter.
