

Ralph Shealy, SC. I bought a "Rugged Tommi" and a handmade knife marked CLY. I want you to know that I am so glad that I decided to buy them. They are an excellent value. I just want you to know how much I appreciated the personal attention and the time you spent with me. I will long remember you and your commitment to tradition and craftsmanship.

Floyd Viers, IL. I do like your knives! I have to tell you that I've been collecting knives since the early 1960's, and yours are consistently the finest I have ever purchased. Your knives are consistently SUPERB! I've never been disappointed with the quality or the sharpness, or the service. EVER!

D.K. Carman Jr., WA. I received my Fang puukko today and had to drop a note to tell you how much I love it. The pictures on the website don't do it justice. Not only one of the most attractive knives I've seen but the handle fit is so comfortable. This knife has got to be the best deal out there. It's almost like getting a custom knife at a fraction of the cost. The knife has immediately become my daily carry knife.

Brian Stafford, MD. I just got back from a hunting trip and had the opportunity to put my Christmas present Wolverine knife to the test. I can't say enough about that knife, just outstanding. Everyone who saw it wanted to know where I got it. However, the big hit was the all-purpose knife. No one believed that it cost less than \$20.

Andrew Allen, UK. The knife I ordered arrived today, 5 days after the order. This is far quicker than the goods I've ordered that are coming within the UK, many thanks. I thought it was a joke seeing the man shaving with it on your pamphlet, HA HA. I have never experienced a knife as sharp as the one I received, wow what a knife! I must commend Kellam Knives for your service and quality of the products you sell.

Larry Maki, CT. I Just received "The WildFinn" puukko knife I ordered and was extremely pleased upon seeing the knife. It is a beautifully created quality item. I am recommending you to my friends. Thank you!

RAZOR SHARP

It's a Kellam.
Experience it.
