

▶ **Jouni Folder - FJ1 & Big Jouni Folder - FJ2** When Jouni designed these knives he envisioned knives of quality comparable to many custom made knives. Both of the knives have a handsome cocobolo and ivory micarta handle with a razor sharp liner locking blade of 2.5" AUS-8 (FJ1) and 3.25" VG-10 (FJ2) stainless steel.

▶ **Millennium Folders** are liner lock knives with lightweight carbon fiber handles and T9 stainless teflon coated blades. These folders come with clips.

◀ **Prowler™ - WP3** has a 2.8" blade and full sized handle making it very useful for caping and close work. Ideal for detailed skinning work or where a strong cut is needed.

◀ **Striker™ - WP4** Excellent for hunting or skinning and easy to handle. Great for large sized game dressing. 3.5" razor sharp blade.

◀ **Fang™ - WP5** Sized for most outdoor and hunting purposes. This is a very balanced design for universal application. Blade 4.7".

◀ **Tracker™ - WP6** Features 5.7" blade. More cutting edge for those who like a long blade to use for most tasks. Great for foresting and camping.

◀ **Slasher™ - WP7** is the muscle of the Wolf Pack™. It's large 7" razor sharp blade gets the big jobs done with ease.

▶ **Ranger Puukko - JPM95** is designed, built for and used by the armed forces. The razor sharp forged carbon Teflon coated blade is 5mm thick and flat ground all the way to the edge. Easy to carry securely in the sheath, even for upside down carry. Handle in composite rubber material, designed for a secure grip. The rotating rubber roll locks the knife in the sheath and can be removed with one hand.

You can choose a composite or leather sheath for your knife.
